For Immediate Release**EASi Announces Distribution Agreement for ANSA**

EASi to distribute ANSA in India

Bangalore, India – July 6, 2007 – EASi, a leading provider of engineering services in the automotive industry, announced it signed an agreement with BETA CAE Systems S.A. of Thessaloniki, Greece to distribute their ANSA software product in India. EASi will also provide training and technical support to users of ANSA in India.

ANSA pre-processor and μ ETA post-processor package currently holds a leading position in the CAE software market worldwide. For years this product has set the standard in many sectors including automotive, railway, aerospace, motorsports, chemical and academic.

“ANSA is the industry leading technology offering exceptional performance and high quality. It is the leading software used by most of our global customers,” said Prakash “Krish” Krishnaswamy, President of EASi. “As Indian industry grows and adopts new and exciting technologies in the CAE space, we see high potential for ANSA in the market. EASi’s Domain Knowledge Institute was established to migrate advanced industry specific knowledge in the application of CAE technology,” added Krishnaswamy.

About EASi

Founded in 1981, EASi is headquartered in Madison Heights, Michigan, USA and is a tier-one engineering services supplier to over 15 OEMs and over 65 suppliers. Its industry contributions to technology, process, applications and material innovation have won it recognition as a leading-edge engineering services company. EASi’s longstanding service to the global automotive industry has established its reputation as a solid, trustworthy, innovative and customer-focused company. EASi is an affiliate of the Allegis Group, Inc., a \$5 billion service company headquartered in Baltimore, Maryland.

EASi is a leader in providing high value engineering solutions to the global automotive industry and is widely recognized for its contributions to CAE technology worldwide. EASi provides design and engineering services to clients around the world. EASi’s Domain Knowledge Institute has developed comprehensive training materials for the deployment of knowledge and technology to the market.

About BETA CAE S.A.

BETA CAE Systems S.A., headquartered in Thessaloniki, Greece, is a private engineering software company specialized in the development of state-of-the-art CAE pre- and post-processing software systems. The company focuses on meeting customers requirements and is committed to its mission of being the leading force in industrial CAE software solutions.
