EASi conducts the first ever ANSA India User Event

Bangalore, India – Jan 31, 2008 – EASi's Domain Knowledge Institutesm conducted the first ever ANSA India User event in Bangalore on January 18, 2008. The user event was attended by the ANSA users from various industry segments such as Aerospace, Automotive, Heavy Equipment, Light Industrial etc.

“ANSA India User event provides a platform for the Indian ANSA user community to exchange ideas and best practices to foster innovation and productivity improvements across the entire user base” said Vasantha Sural, VP of Technology and Domain Knowledge Institute at EASi.

Dr. Sam Saltiel, Chief Communications Officer at Beta CAE Systems, discussed the strategic product direction and developments planned for the ANSA toolset and related technologies. Irene Makropoulou, Customer Service at Beta CAE systems, presented a technical briefing on applications of the “common model concept”. She discussed how common model concept can minimize or even eliminate the risk of missing necessary data and reduce the scatter in simulation results while data is shared among multiple users. She emphasized on improvement in CAE productivity and effectiveness with the help of common model concept.
