**Solid focus on Vehicle Dynamics Technology – EASi highlights its technologies at Automotive Testing Expo 2010 at Booth # 2025**

---

Bangalore, India - February 9<sup>th</sup>, 2010: EASi ([www.easi.com](http://www.easi.com)) an official exhibitor at International Automotive Testing Expo 2010, held from February 2-4, 2010 in Hyderabad, India. The expo aimed at bringing exhibitors from all around the globe under one roof to showcase the best in automotive testing.

EASi showcased latest technology solutions and services for the Automotive testing industry, including those in partnership with Mechanical Simulation Corporation (CarSim) & Simtec GmbH at the expo. The scope of services provided in Automotive Testing expo covered all aspects of testing, evaluation and quality engineering technologies, services and equipment.

Highlights of the show included:

- ✍ Visitors had an opportunity to know about how Vehicle Simulation products offers seamless communication with software (SIL) and hardware (HIL) technologies
- ✍ A knowledge-sharing platform for the Indian and global automotive industries, opportunities to get information about the latest tools & technologies for development
- ✍ Presentations by EASi about the latest testing technology and equipment to simulate the dynamic performance of cars, trucks, motorcycles, and a wide range of specialty vehicles
- ✍ Multi-sector networking opportunities for visitors

**About EASi**

Founded in 1981, EASi is a global engineering firm that services the US, UK, Germany, Japan and India markets. We are a trusted global engineering partner to our customers. We enable our customers realize varied benefits of globalization using our global engineering expertise, best-in-class recruiting capabilities and knowledge management framework. For more information visit <http://www.easi.com> or send an email to [info@easi.com](mailto:info@easi.com).

**About Testing Expo**

Automotive Testing Expo India 2010 (<http://www.testing-expo.com/india/>) brought together the world's leading test equipment manufacturers and service providers for an intensive three-day technology-sharing event, covering all aspects of testing, evaluation and quality engineering technologies, services and equipment.
